

ABUS Trigger Alarm 345

Tootekirjeldus

Hardened steel is good – when used together with a mobile alarm system it's even better. The ABUS Trigger Alarm 345 offers you both.

Description:

- 5 mm steel bolt
- Very easy handling due to “push down” cylinder where the bolt is moved in the locking process automatically
- The bolt, lock body and supporting elements of the locking mechanism are made of specially hardened steel
- Alarm function based on a vibration detection system
- Alarm of at least 100 dB
- The lock can be transported in the locked state without activating the detection system thanks to an "On/Off" key position
- Different acoustic signals indicate the battery and activity status
- Two keys are supplied in the scope of delivery
- One CR2 standard battery to supply the electronic unit is included in the scope of delivery
- A Memory Cable is included as a reminder

Specifications:

- Security Level: 8 of 20
