

ABUS Ivera Chain 7210/85

Tootekirjeldus

A material that offers resistance: Ivera 7210/85 Chain Lock from Abus

The concept that the IvyTex technology is based on, has already been in use for several years in industrial applications in areas subjected to high loads, where moving parts have to be protected against wear and tear.

ABUS has taken advantage of this concept by using it in the sleeves for its chain locks. The effect of this is twofold: It provides protection against wear and tear, as well as preventing the chain from causing damage to the bicycle.

IvyTex technology has many other benefits aside from its endurance. The hi-tech fabric is also durable and highly flexible, as well as being weatherproof and resistant to liquids. This prevents water from being absorbed by the fabric, thereby protecting the locks against corrosion. Its durability also means that there's no excuse for not securing your bicycle, even if the weather is bad and you worry about the lock getting dirty.

Features - Abus IVERA Chain 7210/85

- 7 mm square chain with new functional, durable and highly flexible synthetic fibre sleeve prevents damage to paintwork
- The sleeve offers very high protection against abrasion and does not absorb any liquids e.g. water or oil
- The chain, the lock body and supporting elements of the locking mechanism are made of specially

hardened steel

- Ergonomically-shaped lock body
- Outstanding protection in situations where the risk of theft is low to medium
- Comes with a user-friendly reversible key

Product features

- Safety level: 8 of 15
- Locking type: reversible key
- Length: 85cm
- Diameter: 7mm

Weight

- 1280g (manufacturer information)
