

ABUS 72

Tootekirjeldus

The seven colours available allow assignment and differentiation by area or user. This makes this lock ideally suited for use in workplace security, for example, for locking main switches. Series 72 and 74 locks can be combined with each other in a locking system.

With these colourful aluminium padlocks, ABUS ensures security in industry.

Can be secured:

- Doors
- Gates
- Cupboards
- Lockers
- Toolboxes
- Basement
- Shed
- Switchgear and much more
