

Abloy EL461

Tootekirjeldus

EL461 is a handle controlled solenoid lock used in narrow profile doors. Handle controlled locks are best suited in medium traffic doors. The locks can be electrically controlled by access control system or by a remote control system such as timer, keypad or push button.

Features:

- Voltage: 12-24 VDC
- Backset: 35mm
- Operating temperature range: -20°C kuni +60°C
- Faceplate: 24 mm
- Recommended to be used in interior doors and business premises, public buildings, hospitals, educational premises etc.
- Both inside and outside handles are electrically controlled. Mechanical opening by cylinder or thumbturn is always possible
