ABUS Bordo Lite 6055/85

Tootekirjeldus

Boasting a total weight of 440g and a compact design, the BORDO Lite 6055 is a lithe athlete compared to other locks.

The BORDO Lite 6055 Folding Lock resembles its older siblings from the BORDO family in that its mechanical properties guarantee a high level of security, flexibility, and compactness.

Weighing in at a mere 440g, the BORDO Lite 6055 folding lock is the flyweight of the family. Its folded-out length of 60cm is more than enough to secure a single bicycle.

- Special steel design with color-coordinated plastic casing to prevent damage to the bike's paint
- The bars and housing are manufactured using particularly lightweight materials and steel alloys
- Bars connected with special rivets
- High-quality automatic cylinder
- Perfect security-to-weight ratio
