Hasp ABUS 140/190	[illegible]	30,13 €

[illegible] different security levels. You can recognise these hasps, for example, by concealed screws. In addition, hardened steel eyelets for the padlock shackle are encapsulated inside the hasp and thus provide optimum protection against break-in attacks. Together with the appropriate padlock, the hasp then ensures the highest level of security when securing the door and gate. The strong ABUS 140/190 Diskus® hasp is suitable for flush doors, i.e. the door panel and door frame are on one level. The design is matched to the original ABUS Diskus® padlocks so that the shackle is shielded against unlocking tools.
