Steel-O-Flex™ Centuro 860/85 is a high quality, double locking cable lock made of 5180 hardened steel, 60:04 encase the inner steel cable and thus provide double security. This makes it much more difficult to cut the cable than with a simple cable lock. We recommend using the Steel-O-Flex™ Centuro 860 primarily for securing good bikes and as protection in areas with a medium risk of theft.
