

ABUS Diskus Plus 20

Tootekirjeldus

The ABUS Diskus 20 padlocks have the ABUS Plus disk cylinder which resists drill, pull and manipulation attacks, a stainless steel shackle to resist saw attacks and 'Deep Weld Technology' which offers maximum case strength. These features offer the highest level of protection restricting the usual method of manipulation.

Usability

- To secure valuables/goods of great value or at a very high risk of theft
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
- Ideally used with ABUS Diskus Hasp 140, virtually impossible to attack shackle

Product Features

- Available Master Keyed
- Original Diskus design: 360 protection
- Sophisticated Diskus welded seam for highest break resistance
- Stainless steel body
- Additional protection against sawing
- Key retaining: key is needed for locking
- Made in Germany
- Shackle made from stainless steel
- ABUS-Plus disc cylinder: highest protection against manipulation, drilling and pulling
